► FEATURES:

Fabricated in 10ft lengths with:

- Integrated Splice Plate means *No additional pieces, Improves installation times.*
- Cut-Tab Corners allow for minor adjustments at corners. Just set and rivet to keep in place
- Custom miters and profiles available.
- Drainage Outlets 3/8" wide x 1" high, spaced 1" O.C. to provide maximum drainage beneath the vegetative roof system.
- Height of slots accounts for the thickness of most drainage mats.

► INSTALLATION:

EDGE RESTRAINT

Edge restraint is loosely laid on top of roofing system as specified and held in place by the weight of the growing media placed over it. Do not mechanically attach through roof system.

► STANDARD SIZES:
